

Web Centric, Warehouse Management System

4S eLog[®] is Four Soft's web centric warehouse management system capable of handling inventory operations across multiple warehouses for different customers. Built on J2EE platform with a native browser interface, 4S eLog[®] is designed to support core operational and financial requirements of modern day global freight forwarding, transport, 3PL, 4PL and distribution companies. 4S eLog[®] extends well beyond the capacity of a traditional warehouse management system by integrating supply, fulfillment and partner collaboration into one enterprise service platform.

PRODUCT FEATURES

- ▶ Inbound/Outbound operations
- ▶ Order & Inventory management
- ▶ Bonded goods handling
- ▶ Warehouse invoicing
